HAMMER & MOSSER, PROP'TRS.
DECATUR, ILLINOIS

Entered at the Post Office at Decatur, Illinois,
second class mail matter.

SATURDAY EVE., SEPT. 28, 1889.

According to official statements the money contributed in aid of the Joliette suffered amounts to \$3,500,000. Such generosity upon the part of the American people makes one proud of humanity.

The great Delaware house of Bayard is out of favor in all departments of the state and federal governments. This is the first time in half a century or more when the people have been compelled to get along without a Bayard.

Some Things That are Interesting.

There are some very interesting items of information coming out in the deliberations of the American Bankers' Association. The address of President Parsons, showing the financial condition of the country and contrasting it with that of a hundred years ago, called attention to the fact that a century ago there were but three banks in all this country, with an aggregate capital of \$1,650,000. Since then a banking system has been developed in the United States representing a capital of \$857,888,000, and deposits aggregating \$3,011,460,000.

No other comparison would better represent the growth of the country, and nothing opens up a more wonderful field for speculation as to the future. The remarkable growth and development of the United States during the century now drawing to a close is a romance as enchanting and interesting as any ever conceived in the fertile brain of the manufacturer of fiction. When it comes to be written up and embellished there will be no tale of fiction more absorbingly interesting, and it will have the advantage of all being true.

In town, where it is impossible for them to win, the Democrats openly allow themselves as free-traders of the Mule bill stripes. In Virginia, for the purpose of escaping defeat, they are protectionists. In Ohio, where they have a desire, with but little expectation of success, they straddle the question. The Democracy is in one place all things to all men, and in others nothing to nobody.

Goochland, Va., enjoyed a rather unusual sensation the other night. A young colored girl, armed with a gleaming razor, dashed into a church and announced that she had come to cut the throat of the devil. From the way in which the congregation stamped and yelled, it was believed that she was a member of the church. When the devil had been cleared of worshippers, the girl attacked the preacher, but was overpowered before she could do any damage.

The rejected lover who seeks to cover the object of his affections into relenting by the means of a pistol, has become familiar to all newspaper readers. It remained for Mr. Murray, of Emporia, Kas., to adopt an entirely original mode of procedure. Murray became infatuated with Sister Camille, of the Convent of the Sacred Heart. She had entreated him through a lawyer to let her go. He told her, "I am, and I will be to a man ahead of the first mortgage bonds."

A man, known as the "King of Knightsbridge," swam.

Chicago, Sept. 25.—Ignatz N. Morgan, born last week secretary of the Polish National Alliance of North America, is a confederation of all the Polish political and benevolent societies on this Continent.

Morgan was last week a candidate for election to a third term as secretary of the body and failed to secure the place. He returned home and it is supposed he fled to avoid exposure.

Letter from W. L. Scott.

Chicago, Sept. 25.—Congressman W. L. Scott has addressed a long letter to Erie, Pa., to Governor Fifer bearing on the Spring Valley troubles and claiming that he was paying for saving all that he could save.

He submits figures to show that the Spring Valley Coal Company has always paid relatively higher wages than other mines, and asks the Governor and the public to kindly consider their refusal of uncharitable and unjust abuse which the managers of the company's property has been subjected to.

The business is conducted for their own benefit and also for the money with which their mandates are remunerated.

The commission, in view of the present condition of the Territory as regards polygamy, does not think that Utah should be admitted as a State. Should it be, the commission says it would not be long before the Gentile element with its advanced civilization, its trade and its traffic would be drawn from the Territory and the Mormon element be made superfluous.

We offer One Hundred Dollars Reward for any case of Catherin that can be cured by taking Hill's Catherin Cure.

The first-mortgage bonds of the company have been in default, and there has been considerable anxiety on the part of their holders as to the condition of the property held and the holding that, when it came to be sold, it would be sold at a loss.

The rejected lover who seeks to cover the object of his affections into relenting by the means of a pistol, has become familiar to all newspaper readers.

Congress Urged to Take No Backward Step in Dealing with the "Twin Relic of Barbarism."

Annual Report of the Utah Commission to the Secretary of the Interior.

Washington, Sept. 28.—The annual report of the Utah Commission has been received by Secretary Noble. This commission, under authority of Congress, has general supervision of the elections in the Territory, and is particularly entrusted with the enforcement of the "Edmunds-Tucker" act in regard to polygamy. Acting under this power, the commissioners have issued a certificate that they appointed on November 3, 1888, a canvassing board of five reputable citizens—three of whom were Gentiles and two of whom were Mormons. This board made a return of the votes cast for Delegate to Congress and found that John T. Cline, Mormon, had received 19,127 votes, R. N. Basquin 3,491 votes, and S. R. Thompson 1,021 votes. The certificate of election to Congress was issued to Cline.

The inquiry into the causes of the recent disturbances in the Rock Island railroad incident, which left ten men dead and twenty-four wounded, has been completed.
